

STUDY SKILLS – MUSIC

- The score reading section of the examination is largely rote learning. Students should prepare flash cards with musical terms, musical signs and Italian instrument names.
- In order to prepare for the other section students should regularly listen to music on the radio, tapes, CDs etc. They should hum the score then establish the correct notes using an instrument or singing intervals.
- Transcribing chord sequences off the radio and onto paper is very good practice.
- Attendance at the Monday lunchtime tutorial will help.

All the best for your exams!
